

# GEDDIS PAVING & EXCAVATING, INC.

ESTABLISHED 1946

## **A Long-Standing Reputation of Quality & Integrity**

Geddis Paving & Excavating, Inc. has been serving Toledo and the surrounding communities for nearly 70 years. Robert Geddis, Sr. founded Geddis Brothers Paving back in 1946. The company was incorporated 30 years later and changed its name to Geddis Paving & Excavating, Inc. Our founder Robert Sr. passed away in 1985 and Robert Jr., President, carries on his dad's legacy. Additionally, Ben Geddis, third-generation, serves the company and its clientele as CFO.

# **OUR STORY**

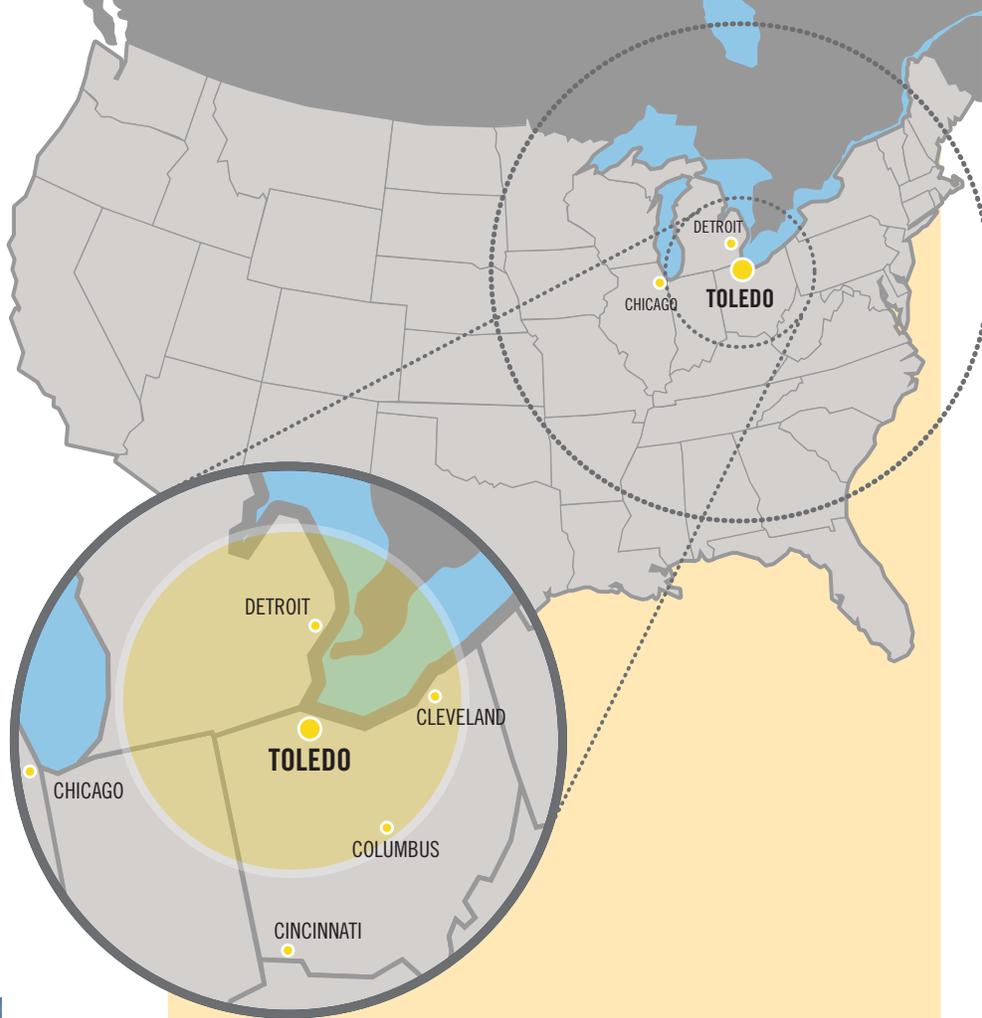

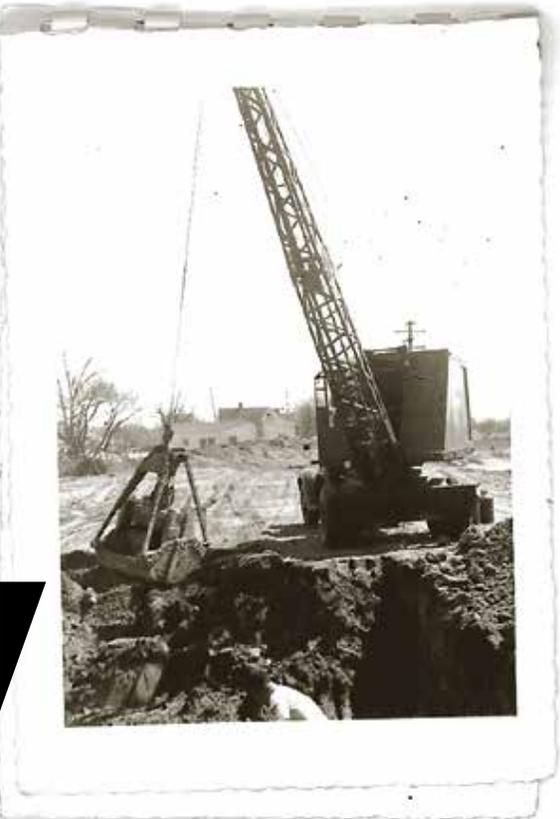

## **Promises Made & Kept On A Handshake**

In 1946, the company began with only a single backhoe and a dump truck and their word was their promise. Today, Geddis Paving & Excavating is proud to offer an entire fleet of paving, excavating, and utility installation equipment. The size of work has also changed from small residential driveways to major commercial, industrial, and public projects (federal, state, and municipalities). This includes excavation, sanitary and storm sewer installations, and waterlines. While business continues to grow and expand, our core philosophy built on trust remains constant.

## **From Start To Finish**

It doesn't matter if our client is a small business owner in need of parking lot repairs, or a large developer with a major site development project. Our commitment to adjust, adapt and deliver a quality product to our customer always comes first. We are looking forward to serving Midwestern markets for many, many more years to come!

“ My first experience with Geddis Paving & Excavating dates back to 1987 or 1988 when I was Director of Operations for Monroe County Road Commission. Geddis helped us with several things including spreading stone with their stone box and dozer and paving. It was always easy to pick up the phone and call Bob to ask for help on a project and he always seemed to figure out a way to come through. In my current position as Sales Manager for Asphalt Materials Inc. in Oregon, Ohio I continue to have the pleasure to deal with Geddis both as a customer and a source of equipment and knowledge for road and site related projects that we get involved with. Based on my experience I would never have a second thought about recommending Geddis to our friends and customers. ”

# PROJECTS

[www.GeddisPaving.com](http://www.GeddisPaving.com)

“ Eight years ago I initially contacted Geddis Paving for a parking lot expansion proposal. This was a significant project for a 24/7 healthcare facility. Since then, Geddis Paving has successfully constructed many other projects including surface applications, underground detention, subbase repairs and new pavement. The team at Geddis made these site improvements seamless to our operations at several Kingston facilities. They were extremely flexible and accommodating with our staff to ensure all visitors and their families maintained safe access to our buildings at all times. I always look forward to working with Geddis Paving and would highly recommend to anyone looking for quality work done right the first time. ”
